EXECUTIVE SUMMARY

Accomplished technology leader with 19+ years of experience steering high-performing engineering teams and driving DevOps transformations across DeFi, Healthcare, and enterprise domains. Proven track record managing teams of 100+ engineers across a \$14M, 6-project portfolio, shaping technical strategy, and delivering scalable, compliant enterprise systems. Passionate advocate for Agile and DevOps culture, with deep expertise in cloud technologies, automation, and process improvement aligned to strategic business outcomes.

CORE COMPETENCIES

- Strategic Technical Planning & Roadmapping
- Stakeholder & Executive Communication
- Agile & DevOps Culture Evangelism
- Multi-Project Portfolio Delivery
- Team Leadership & Mentoring (100+ Engineers)
- Process Automation & Cost Reduction
- Client Relationship Management
- HIPAA-Compliant Systems & DeFi Platforms

TECHNICAL SKILLS

Cloud Platforms: AWS, Azure, Google Cloud

Infrastructure as Code: Ansible, Puppet

Monitoring & Observability: Nagios, New Relic, Datadog, Site24x7

Databases: Relational / SQL

Code Management: Git, SVN, CVS

CI/CD & Orchestration: Jenkins, TeamCity

Containerization: Docker, Vagrant

Programming & Scripting: Java/J2EE, Python, Shell, Ruby

Build & Code Analysis: Maven, Ant, SonarQube

PM & ITSM: JIRA, Rally, ServiceNow, PagerDuty, MS Project, VersionOne

Incident Management: PagerDuty, Runbook Automation

Automation & Testing: Rundeck, Selenium

PROFESSIONAL EXPERIENCE

Program Manager — ValueLabs Technologies, Hyderabad

December 2018 – Present

- Manage a portfolio of 6 concurrent projects across DeFi, Healthcare, and enterprise domains with a combined team of 100+ engineers, driving \$14M in revenue over 2 years
- Lead a cross-functional team of 80+ engineers building decentralized finance (DeFi) platforms, including smart contract deployment pipelines and blockchain infrastructure
- Oversee HIPAA-compliant Healthcare systems, patient data platforms, and clinical workflow automation
- Direct 24x7 Operations covering 2 production releases per month, maintaining 99.9% uptime while reducing MTTR by 60% through PagerDuty and Runbook Automation
- Championed process automation initiatives that increased team productivity by 40% and reduced operational costs through streamlined workflows
- Communicate project status and key milestones to executive leadership, ensuring alignment with strategic business objectives

Technical Architect — NISUM Technologies, Hyderabad

March 2018 – December 2018

- Led DevOps implementation for major e-commerce clients, enhancing deployment pipelines and infrastructure automation
- Authored Ansible playbooks establishing a fully automated Continuous Deployment pipeline, reducing manual intervention and deployment errors
- Designed and implemented scalable CI/CD pipelines for existing applications using Jenkins

Technical Architect & DevOps — Quest Global, Trivandrum

May 2017 – March 2018

- Architected and implemented a comprehensive DevOps strategy for the GE Grid division, integrating modern practices into the development lifecycle
- Developed a DevOps starter kit adopted organization-wide, used to demonstrate capabilities and secure new customer engagements

Technical Manager — Tech Mahindra Ltd, India & USA

February 2006 – May 2017

- Progressed from Team Member to Technical Manager over 11 years, leading teams of up to 25 engineers across onshore and offshore locations
- Spearheaded DevOps transformation for legacy PLM applications, automating build and deployment to handle 3,000+ builds annually with on-demand deployment capability
- Fostered a culture of continuous learning by conducting technical trainings and organizing company-wide hackathons

EDUCATION & CERTIFICATIONS

Bachelor of Technology, Computer Science & Engineering

Koneru Lakshmaiah College of Engineering (KL University), Andhra Pradesh — 2001–2005

- AWS Developer Associate — Simplilearn
- TOGAF 9 Certified
- ITIL 4 Foundation Certified
- PagerDuty Foundational Practitioner
- Certified DevOps Professional
